Communication

Problem Solving

Critical Thinking

Time-management

PROFILE

A third-year BSIT student at the University of Southeastern Philippines, I am deeply passionate about backend development in IT. Proficient in Java, Python, HTML, PHP, SQL, and CSS, with a particular focus on Laravel framework, I'm dedicated to crafting robust solutions and staying updated with industry standards. Currently enhancing my skills through Laracasts, an online learning platform renowned for its comprehensive tutorials on Laravel and modern web development practices. Committed to contributing meaningfully to innovative IT projects.
